YOUNG WOMEN'S TRUST

Ask Wendy

Project Brief

Young Women's Trust often needs help training young women for interviews. We will build a chatbot interface with an LLM with pre-designed prompts to ask common interview questions (e.g. tell me about yourself, what are your strengths and weaknesses) and critique the user's response. It should also look for any gender bias in the LLM's output, e.g. assuming a programmer is a "he."
